

FREE TO A GOOD CLASS!!!!!!!!!!

NEW ANIMAL SAFETY PROGRAM

Debby Leddy with Williamson County Animal Control presents a new animal safety program entitled ***B.A.R.K (Be Aware, Responsible, and Kind)*** This program features a cat named Humphrey and a dog called Turnip. The program focuses on reading an animal's body language, keeping yourself safe and how to avoid being bitten by a dog. There will be practices in safety presented, games, coloring sheets, and "thumbs up"—"thumbs down" discussion. This program was developed by the youth education division of the Humane Society of The United States. We also bring animals (if requested) Usually a big hit!

*****We will also offer another *program* consisting of **Animal Control information and demonstrations**. An Animal Control Officer will accompany Debby to the classroom and talk about safety around wildlife, an officer's equipment and how it works, truck available for viewing, and animal handling demonstrations.

We will also inform children of a *program* called ***Random Acts Of Kindness*** with instructions. This goes very well with the Character Under Construction program being used by the School system

Call Debby at **790-5590** to schedule class

These classes are usually around 30-45 minutes long and ends with the children petting the puppies we bring. We bring hand sanitizer for the children and promote health and safety.

Classes are available for K-8th with specialized programs for the older children designed to fit the curriculum they are studying (legal, history, breeds, exotics, cruelty etc.)
